

New & Innovative Products Forum 2009

'Thinking Smarter, Working Smarter – Every Time'
The Utility Industry's Newest, Most Intelligent Event!

NaIP - 2009

Supported by

Exhibition Park in Canberra, 24th & 25th November 2009

Country Energy are leading the innovation march with their impressive support of this pioneering forum.

NaIP-2009 concept & design is to encourage research & display New & Innovative Products to a national audience of informed specialists.

This new event concept welcomes all product suppliers servicing the Australian Utilities Industry – including network management, smart grid, system reliability, protection, asset management, safety, training, plant, tools & equipment, field operations, testing, e-mobile communications & data transfer, planning & design etc., especially those products that fit into a New & Innovative Products category.

The delegate aim is broad, encompassing anyone in the Utilities Industry involved in the design, selection and procurement of products. Delegate attendance is Free.

NaIP-2009 event features –

- New & Innovative Products Formal Demos & Presentations Program
- Expo of all Products – New & Existing
- Valuable Networking Opportunities
- Informed Audience of the *'RIGHT PEOPLE'*
- New Product Development Opportunities
- Industry Media Support from the Australian Power & Energy News
